

Register for a Username

When you are granted access to one of Paycor's applications, an administrator at your company will have created a record where your personal, contact, and other information is stored. When that happens, you should receive instructions on how to register so that you can access and update your information as designated by your employer.

Note: If you are an employee, your employer must have your Date of Birth and Social Security Number (SSN) entered in the system in order for you to register for a Paycor.com Username.
